- Tiberiu 'Tibi' Covaci
- Software engineer, > 20 years experience
- 12 years as Trainer, teaching Web technologies, and .NET
- Developer, Trainer, Mentor
- Microsoft MVP & ASP Insider
- Father & Geek
- @tibor19

Agenda

- The History Lesson
- The Quick Start Guide
- Modules
- Components
- Services
- Out of the box stuff

The History Lesson

- First appeared in 2009
- A nice way to augment HTML
- Angular 2 announced in September 2014
- Release last month, finally! ☺

Modules

- TypeScript
  - Same as JavaScript which is effectively a scope.
- Angular
  - A way organize an application into cohesive blocks of functionality.

```
@NgModule {
    imports: [],
    providers: [],
    declarations: [],
    exports: [],
    bootstrap: []
}
```

Summary

- The History Lesson
- The Quick Start Guide
- Modules
- Components
- Services
- Out of the box stuff

Thank You!

Don't forget to write! ☺
